IMMUNOLOGY

CONTENTS

Vol 61 No. 1 May 1987

M. J. FRANCIS, C. M. FRY, D. J. ROWLANDS, J. L. BITTLE, R. A. HOUGHTEN, R. A. LERNER & F. BROWN: Immune response to uncoupled peptides of foot-and-mouth disease virus 1

J. P. VENDRELL, A. DELOBBE, M. F. HUGUET, F. PERALDI, A. SERRE & A. CANNAT: Biological properties of a panel of murine monoclonal anti-*Brucella* antibodies 7

A. UEKI, T. SAI, H. OKA, M. TABATA, K. HOSOKAWA & Y. MOCHIZUKI: Biosynthesis and secretion of the third component of complement by human endothelial cells *in vitro* 11

A. MALBRAN, M. M. FRANK & L. F. FRIES: Interactions of monomeric IgG bearing covalently bound C3b with polymorphonuclear leucocytes 15

S. C. KNIGHT, P. FRYER, S. GRIFFITHS & B. HARDING: Class II histocompatibility antigens on human dendritic cells 21

B. KLEINE, R. SPRENGER, C. MARTINEZ-ALONSO & W. G. BESSLER: Polyclonal B-cell activation by a synthetic analogue of bacterial lipoprotein is functionally different from activation by bacterial lipopolysaccharide 29

T. OHNO, M. MIYAMA-INABA, T. MASUDA, K. FUKUMA, K. AJISAKA, R. SUZUKI, K. KUMAGAI, T. KANOH & H. UCHINO: Inhibitory mechanism of the proliferative responses of resting B cells: feedback regulation by a lymphokine (suppressive B-cell factor) produced by Fc receptor-stimulated B cells 35

M. MIYAMA-INABA, T. OHNO, K. INABA, K. AJISAKA, R. SUZUKI, K. KUMAGAI & T. MASUDA: Inhibitory mechanism of the proliferative response of B lymphocytes: suppression of the proliferation induced by anti-μ antibody and BSF_1 by immune complexes 43

L. DANIELSSON, S. A. MÖLLER & C. A. K. BORREBAECK: Effect of cytokines on specific *in vitro* immunization of human peripheral B lymphocytes against T-cell dependent antigens 51

D. KABELITZ, B. ZANKER, C. ZANKER, K. HEEG & H. WAGNER: Human cytotoxic T lymphocytes. II. Frequency analysis of cyclosporin A-sensitive alloreactive cytotoxic T-lymphocyte precursors 57

O. BAGASRA, A. HOWEEDY, R. DORIO & A. KAJDACSY-BALLA: Functional analysis of T-cell subsets in chronic experimental alcoholism 63

J. COUDERC, M. FÉVRIER, C. DUQUENNE, P. SOURBIER & P. LIACOPOULOS: Xid mouse lymphocytes respond to TI-2 antigens when co-stimulated by TI-1 antigens or lymphokines 71

S. TSURU, M. TANIGUCHI, N. SHINOMIYA, H. FUJISAWA, Y. ZINNAKA & K. NOMOTO: Cholera toxin-induced tolerance to allografts in mice 77

R. L. SPOONER, E. A. INNES, P. MILLAR, S. P. SIMPSON, J. WEBSTER & A. J. TEALE: Bovine alloreactive cytotoxic cells generated *in vitro* detect BoLA w6 subgroups 85

L. L. BAUM, B. JOHNSON, S. BERMAN, D. GRAHAM & C. MOLD: C-reactive protein is involved in natural killer cell-mediated lysis but does not mediate effector–target cell recognition 93

Brief communication

W. A. MACKENZIE & T. F. DAVIES: An intrathyroidal T-cell clone specifically cytotoxic for human thyroid cells 101

Vol. 61 No. 2 June 1987

A. P. VAN DAM & C. E. HACK: Formation of C3–IgG complexes in serum by aggregated IgG and by non-immunoglobulin activators of complement 105

R. DZIARSKI: Modulation of polyclonal activation by plasma fibronectin and fibronectin fragments 111

M. A. KERR, Y. M. HUSSEIN, R. C. POTTS, J. SWANSON BECK & M. M. SHERIFF: Characterization of a factor in leprosy serum that inhibits the growth of mitogen-stimulated normal human lymphocytes 117

Y. M. HUSSEIN, M. A. KERR & J. SWANSON BECK: The mechanism of action of the factor in leprosy serum that inhibits the growth of mitogen-stimulated normal human lymphocytes 125

I. S. GREWAL, C. V. OLSON, S. J. SCOTT & P. M. LAD: Cap formation in a B-lymphocyte cell line is inhibited by pertussis toxin and phorbol ester 131

S. DAENKE & K. O. COX: T cells or their products are required for the differentiation of precursor B cells into antibody-secreting cells specific for a supposed T-independent self-antigen 137

P. C. KWONG & H.-S. TEH: Characterization of a D^b-specific helper factor required for the induction of cytotoxic responses to alloantigens with the use of monoclonal antibodies specific for the helper or the T-cell antigen receptor 143

P. C. KWONG & H.-S. TEH: Mechanism of action of a D^b-specific helper clone and factor in cytotoxic responses to alloantigens 151

K. MOORE & A. M. NESBITT: Functional heterogeneity of $CD4^+$ T lymphocytes: two subpopulations with counteracting immunoregulatory functions identified with the monoclonal antibodies WR16 and WR19 159

H. S. WARREN & A. BEZOS: Heterogeneity in the activation requirements of T cells stimulated by phytohaemagglutinin 167

J. D. WATERFIELD, M. FAIRHURST, R. CHU & J. G. LEVY: Antigen-specific T-cell hyporesponsiveness in MRL congenic mice can be explained by two independent cellular defects 173

A. MCI. MOWAT & M. V. FELSTEIN: Experimental studies of immunologically mediated enteropathy. II. Role of natural killer cells in the intestinal phase of murine graft-versus-host reaction 179

A. MCI. MOWAT, M. V. FELSTEIN & M. E. BACA: Experimental studies of immunologically mediated enteropathy. III. Severe and progressive enteropathy during a graft-versus-host reaction in athymic mice 185

D. J. MAUDSLEY & A. G. MORRIS: Rapid intracellular calcium changes in U937 monocyte cell line: transient increases in response to platelet-activating factor and chemotactic peptide but not interferon-γ or lipopolysaccharide 189

D. M. GLOVER, D. BROWNSTEIN, S. BURCHETT, A. LARSEN & C. B. WILSON: Expression of HLA class II antigens and secretion of interleukin-1 by monocytes and macrophages from adults and neonates 195

R. SAGI-EISENBERG, J. C. FOREMAN, P. J. RAVAL & S. COCKCROFT: Protein and diacylglycerol phosphorylation in the stimulus-secretion coupling of rat mast cells 203

J. N. BULMER & U. EAPL: The expression of class II MHC gene products by fallopian tube epithelium in pregnancy and throughout the menstrual cycle 207

P. J. C. M. MAAS & I. G. COLDITZ: Desensitization of the acute inflammatory response in skin and mammary gland of sheep 215

R. G. BELL, M. KORENAGA & C. H. WANG: Characterization of a cell population in thoracic duct lymph that adoptively transfers rejection of adult *Trichinella spiralis* to normal rats 221

D. DAVIS & G. GREGORIADIS: Liposomes as adjuvants with immunopurified tetanus toxoid: influence of liposomal characteristics 229

L. N. RUBEN, R. H. CLOTHIER, M. MIRCHANDANI, P. WOOD & M. BALLS: Signals provided *in vivo* by human rIL-2 and Con A can switch hapten-specific tolerance from unresponsiveness to responsiveness in the South African clawed toad 235

Book reviews 243

Announcement 245

Vol. 61 No. 3 July 1987

L. C. WALKER, S. DHUT, W. M. GREGORY & J. A. HABESHAW: Cross-reactive variable-region associated epitopes of human IgG1λ paraprotein detected by a monoclonal antibody panel 247

B. B. COHEN, D. N. CRICHTON & C. M. STEEL: A new set of monoclonal antibodies to human MHC class II α chains demonstrates that most α epitopes are inaccessible on the living cell surface 255

A. A. TE VELDE, G. D. KEIZER & C. G. FIGDOR: Differential function of LFA-1 family molecules (CD11 and CD18) in adhesion of human monocytes to melanoma and endothelial cells 261

C. GUIDOS, A. A. SINHA & K.-C. LEE: Functional differences and complementation between dendritic cells and macrophages in T-cell activation 269

M.-B. VILLIERS, R. H. R. WARD & P. J. LACHMANN: Antibody-dependent cytotoxicity on chicken red blood cell targets mediated by the U937 cell line 277

R. A. CALDERON & G. I. SHENNAN: Susceptibility of *Trichophyton quinckeanum* and *Trichophyton rubrum* to products of oxidative metabolism 283

R. A. CALDERON & R. J. HAY: Fungicidal activity of human neutrophils and monocytes on dermatophyte fungi, *Trichophyton quinckeanum* and *Trichophyton rubrum* 289

U. C. CHATURVEDI, R. NAGAR, L. GULATI & A. MATHUR: Variable effects of dengue virus-induced cytotoxic factors on different subpopulations of macrophages 297

A. GORTER, P. S. HIEMSTRA, P. C. J. LEIJH, M. E. VAN DER SLUYS, M. T. VAN DEN BARSELAAR, L. A. VAN ES & M. R. DAHA: IgA- and secretory IgA-opsonized *S. aureus* induce a respiratory burst and phagocytosis by polymorphonuclear leucocytes 303

P. C. WILKINSON & A. HIGGINS: Cyclosporin A inhibits mitogen-activated but not phorbol ester-activated locomotion of human lymphocytes 311

W. J. BATEMAN, E. J. JENKINSON & J. J. T. OWEN: T-cell immunity to murine Moloney sarcoma virus-induced tumours: L3T4$^+$ T cells are necessary for resistance to primary sarcoma growth, but Lyt-2$^+$ T cells are required for resistance to secondary tumour cell challenge 317

E. MEEUSEN: The induction of cytotoxic T-cell responses with H-2 antigens shed from viable lymphocytes 321

F. UHER, É. PUSKÁS, J. GERGELY & H. BAZIN: An IgM-producing immunocytoma induces large numbers of splenic T lymphocytes with Fcμ receptors 327

A. G. LAMONT, M. GORDON & A. FERGUSON: Oral tolerance in protein-deprived mice. I. Profound antibody tolerance but impaired DTH tolerance after antigen feeding 333

A. G. LAMONT, M. GORDON & A. FERGUSON: Oral tolerance in protein-deprived mice. II. Evidence of normal 'gut processing' of ovalbumin, but suppressor cell deficiency, in deprived mice 339

P. M. KAYE: Acquisition of cell-mediated immunity to *Leishmania*. I. Primary T-cell activation detected by IL-2 receptor expression 345

G. C. STARLING, S. E. DAVIDSON, J. L. MCKENZIE & D. N. J. HART: Inhibition of natural killer-cell mediated cytolysis with monoclonal antibodies to restricted and non-restricted epitopes of the leucocyte common antigen 351

J. P. BANGA, E. KASP, B. A. ELLIS, E. BROWN, S. SULEYMAN & D. C. DUMONDE: Antigenicity and uveitogenicity of partially purified peptides of a retinal autoantigen, S-antigen 357

I. I. ANGUNAWELA: The role of autoimmune phenomena in the pathogenesis of cataract 363

R. HOLMDAHL, M. ANDERSSON & A. TARKOWSKI: Origin of the autoreactive anti-type II collagen response. I. Frequency of specific and multispecific B cells in primed murine lymph nodes 369

G. C. B. Astaldi Ricotti, M. Pazzaglia, A. M. Martelli, A. Cerino, M. Bestagno, A. Caprelli, S. Riva, M. A. Pedrini & A. Facchini: Autoantibodies to purified nuclear proteins related to DNA metabolism during ageing and in SLE patients 375

Brief communications

K. Guy, P. G. Middleton & C. M. Steel: Variant sublines of the human B-lymphoma cells Namalwa are at different stages of differentiation 383

J. H. Nuijens, C. C. M. Huijbregts, G. M. van Mierlo & C. E. Hack: Inactivation of $C\bar{1}$ inhibitor by proteases: demonstration by a monoclonal antibody of a neodeterminant on inactivated, non-complexed $C\bar{1}$ inhibitor 387

Vol. 61 No. 4 August 1987

S. Kawaguchi: Expression of two cross-reactive idiotypes on mouse antibodies against bromelain-treated mouse erythrocytes 391

B. R. McClain & K. H. Roux: Mouse monoclonal antibody bearing a VH framework region determinant similar to a rabbit VHa1 allotype 397

T. W. van den Akker, A. P. Tio-Gillen, R. Benner, C. Zurcher & J. Radl: The influence of H-2 genetic factors on the development of benign monoclonal gammopathy in ageing H-2 congenic C57BL and BALB mice 403

F. Mascart-Lemone, J. Duchateau, M. E. Conley & D. L. Delacroix: A polymeric IgA response in serum can be produced by parenteral immunization 409

E. P. Hall & E. A. Gault: Regulation of rat IgE responses by immune complexes 415

M. Tsurufuji, K. Ishiguro, T. Shinomiya, T. Uchida & N. Kamada: Immunosuppressive activity of serum from liver-grafted rats: *in vitro* specific inhibition of mixed lymphocyte reactivity by antibodies against class II RT1 alloantigens 421

D. G. Ritchie & S. H. Zuckerman: Restoration of the LPS responsive phenotype in C3H/HeJ macrophage hybrids: LPS regulation of hepatocyte-stimulating factor production 429

A. Friedman & D. I. Beller: Simultaneous expression of Ia and cytocidal activity by macrophages, and the consequences for antigen presentation 435

T. Espevik & J. Nissen-Meyer: Tumour necrosis factor-like activity on paraformaldehyde-fixed monocyte monolayers 443

P. Fitzharris, O. Cromwell, R. Moqbel, A. Hartnell, G. M. Walsh, C. Harvey & A. B. Kay: Leukotriene B_4 generation by human neutrophils following IgG-dependent stimulation 449

A. Brennan, D. R. Katz, J. D. Nunn, S. Barker, M. Hewison, L. J. Fraher & J. L. H. O'Riordan: Dendritic cells from human tissues express receptors for the immunoregulatory vitamin D_3 metabolite, dihydroxycholecalciferol 457

M. Field, R. M. Brennan, D. McCarthy, P. Mumford & R. N. Maini: MRL-lpr/lpr mice show an impairment of IgG aggregate removal which relates to parameters of disease activity 463

A. Friedman & D. I. Beller: The effect of adherence on the *in vitro* induction of cytocidal activity by macrophages 469

M. L. Dunkely & A. J. Husband: Distribution and functional characteristics of antigen-specific helper T cells arising after Peyer's patch immunization 475

W. A. Sewell, P. A. De Moerloose, J. A. Hamilton, J. W. Schrader, I. R. Mackay & M. A. Vadas: Potentiation of delayed-type hypersensitivity by pertussigen or cyclophosphamide with release of different lymphokines 483

A. B. Reske-Kunz & T. Diamantstein: Evaluation of antigen presentation by a murine Ia^+ T-cell clone, BK-BI-2.6.C6 489

R. Cooper, J. Louw, J. Daniels, D. P. de Beer & A. E. Nel: *C*-kinase activity in normal B cells treated with *Staphylococcus aureus*, Cowan strain I, and phorbol ester: response differences in a patient with prolymphocytic leukaemia 497

R. K. Fidelus & M. F. Tsan: Glutathione and lymphocyte activation: a function of ageing and auto-immune disease 503

R. Rusquet, D. Maniey, Y. Logeais, G. Merdrignac & J.-C. David: Differentiation of thymocytes during human ontogeny: stage-specific DNA ligase in relation to terminal deoxynucleotidyl transferase, cell size and surface antigen 509

C. Bowman, C. Green, L. Borysiewicz & C. M. Lockwood: Circulating T-cell populations during mercuric chloride-induced nephritis in the Brown Norway rat 515

G. E. Grau, D. Gretener & P.-H. Lambert: Prevention of murine cerebral malaria by low-dose cyclosporin A 521

E. S. Stuart, S. M. Tirrell & A. B. MacDonald: Characterization of an antigen secreted by *Chlamydia*-infected cell culture 527

E. Kita, K. Nishi, M. Emoto, N. Katsui, K. Yasui, K. Yasui & S. Kashiba: Analysis of immunity to infection with *Salmonella typhimurium* in outbred mice. I. Requirement of the antibody to non-O antigen for protection in mice that are not protected by the RNA-rich vaccine 535

Y. Yoshiyama & W. R. Brown: Specific antibodies to cholera toxin in rabbit milk are protective against *Vibrio cholerae*-induced intestinal secretion 543
